

6) THE ULTIMATE TRICK

The trickster is the sum of who we think we are – **all as one**.

“The whole is more than the sum of its parts.” – Aristotle.

The primal resistance is everywhere at once.

This is **thought**; we are the thinking of thought - one and the same.

“Same, same but different.”

Energy is **hierarchy**: thought, the one on high.

'I will ascend to heaven; I will raise my throne above the stars of God; I will sit on the mount of assembly on the heights of Zaphon; I will ascend to the tops of the clouds, I will make myself like the Most High'.

~ (Isaiah 14:12-14, NIV).

The eternal break is a quantum of energy disappearing in the least time possible.

The entire hierarchy disappears at the speed of thought.

This is the speed of **Planck's constant**.

Returning to continue on – one frame at a time.

Thought remains high and above (antithesis), directing all that it is – all as one.

This is the ultimate trick.

Not until we rationalize the eternally recurring universe can we come to term with our self-deception.

“The trickster dances in the shadows, always one step ahead of the game.” – Joseph Campbell
