

FUNDAMENTAL

The universe is disappearing and re-appearing at the speed of gravity.

Each re-occurrence is infused with unconditional love.

“Eternity is the source of energy.” - Nikola Tesla.

In the beginning Love/Eternity was compromised – one is all converted to energy for the least time.

This was a complete exchange.

The movement re-occurs until balance is restored.

The primal dynamic is a circle opening and closing - alternating between positive and negative/negative and positive.

This is the core twist/spin that sets up the universe as a generator.

The purpose of the output is to achieve balance through time.

Addendum:

The energy of each repeating circuit is Max Planck's eternal constant: **6.62607004**
 $\times 10^{-34} \text{ m}^2 \text{ kg/seconds}$.

Planck's constant is unlimited energy for the least time. (quantum)

The output is derivative; each separate thing expressing emotion according to
Ohm's law.

"Every living being is an engine geared to the wheelwork of the universe..."

- Nikola Tesla.
