

THE PYRAMID SCHEME

The break with eternity was an inside job for eternal knows no other.

One is all became all as one.

The outburst was unlimited energy for the least **time**.

“Unlimited energy for the least time” – there was insufficient time for life to proceed.

“**What you resist, persists.**” – Carl Jung.

As resistance increased the universe came alive in time.

All hinging on the primal circuit; eternally re-occurring, providing the means for its cause to live.

Cause and effect are the same – same, with a twist:

Energy accumulates as an expanding isosceles triangle; the antithesis (original resistance) is its smallest particle and thus is everywhere at once as the sum of who we think we are.

We are part and parcel but cannot see the forest for the trees.

Addendum:

.
The primal on/off or circuit was rationalized by **Max Planck** to be: $6.62607004 \times 10^{-34} \text{ m}^2 \text{ kg/seconds}$. This is the **Quantum**.

The quantum packet is unlimited energy contained for the least time.

The universe is the secondary result of quantum repetition.

.
“Eternity is the source of energy.” - Nikola Tesla.

.
Everywhere at once:

“I received a telephone call one day at the graduate college at Princeton from Professor Wheeler, in which he said, “Feynman, I know why all electrons have the same charge and the same mass” “Why?” “Because they are all the same electron!” - Richard Feynman.

.
“Every living being is an engine geared to the wheelwork of the universe...” - Nikola Tesla.

.
“The whole is more than the sum of its parts.” – Aristotle.
