

WE ARE ETERNITY

It is disturbing to know that even our most esteemed establishments of higher education do not address the subject of the eternally recurring world/universe.

We are eating ourselves alive!

Your education means little other than to procure your feed if you do not already know where you come from and why you must seek to return.

It's not as though the information isn't available, it has been described throughout the ages and quantified by **Max Planck**.

- The construct of the universe is presented in everything that moves – take a hairdryer apart and you will find a rotating wheel producing output.

But still we refuse, maintaining the 'safe' ground of concrete proof.

"It is important to realize that in physics today, we have no knowledge of what energy is." - Richard P. Feynman

Energy is movement and the first movement occurred when **eternity** was resisted.

Eternity means **ONE is all**.

Resistance twisted eternity to become **All as one** for the least time.

This energy packet continues to repeat until the resistance is resolved.

The universe is disappearing and re-appearing with each turn of the eternal wheel.

The cycling action is fueled by eternity to produce the secondary mass of energy that we are.

The mass is the classroom for us to work ourselves out.

Like any classroom it shuts down when made redundant.

Critical mass is approaching.

...

"From prisons in time we yearn to be free

No one knowing how to be.

The time has come to hold the line

Strike a blow before we find

The point of no return has chimed

Splashed into a lesser clime."

PS: **Nietsche** is taught because his premise is wrong and adds to the confusion.
