

'ROUND 'N 'ROUND

The world/universe is the secondary result of one eternally recurring movement.

The movement was generated when **all as one** we resisted the eternal state of equanimity, thus causing a disturbance that twisted eternity inside out for the least time.

This precise energy is **Planck's constant** (Quantum).

The world/universe is the secondary result of quantum repetition.

Each repeat is the beginning of time and the resistance that caused it is everywhere at once.
