

THE ALTERNATION

ETERNITY twisted inside out for the least **time**.

The twist alternates until the resistance that caused it is reconciled.

Generator

The rotation moves between positive and negative producing secondary issue for the purpose of reconciliation.

If you look closely at any issue of life, you will find a mini-version of the original: a spinning wheel/alternator producing output.

Every turn of the wheel is supported unconditionally to recover of its own accord.

At every turn of the wheel the universe is gathered to eternity – **all as one**.
