

THE CYCLE

“Life is a cycle of ends and starts.” - Mark Webber.

The body dies – its essence is re-assimilated in a perfect continuum that has no memory of what went before.

We are here to learn how **One is all** and each life is dependent on what went before – a learning cycle.

“Perfect, perfect, always perfect.”

...

One is all means we are eternal.

Each person, place or thing is God and we are here to repair ourselves.

One is all is not conditional.

Eternity does not divide, split, or separate, it twists and untwists and this happens in the least time.

The twisting motion is energy.

“Eternity is the source of energy.” - Nikola Tesla.

Repetition of the eternal ‘twist’ is a rotation producing output – a generator.

Energy is movement – movement is illusion.

The output is illusion.

...

The universe is twisting in/out of eternity;

Each repeat a complete disappearance to Love.

Each re-appearance a new beginning; a cycle seeking itself -

The Love cycle cannot begin to work until its beginning is rationalized.

A student must choose a subject before applying to achieve it, likewise, we must know where we come from before applying to achieve it.

“Love is eternal, the aspect may change, but not the essence.” - Vincent Van Gogh
