

THE SMALLEST PARTICLE

“

*No great
discovery
was ever
made without
a bold guess.*

Isaac Newton

When ETERNITY was resisted it twisted inside out for the least time.

The twist was all as one expressing itself.

Eternity cannot break from eternity and the twist guarantees eternal return.

* The twist was infinite force for the least time.

This spark ignited Planck's constant:

The energy/size of the twist is the natural extension of $6.62607004 \times 10^{-34} \text{ m}^2 \text{ kg}$ seconds to $6.66 \times 10^{-34} \text{ m}^2 \text{ kg}$ seconds.

The primal twist is the smallest particle of matter.

~

Max Planck's insight into his constant:

"I must assume behind this force the existence of a conscious and intelligent mind. This mind is the matrix of all matter." – Max Planck.

All as one, we inundate the universe.
